

Naveen Krishna

Frontend Developer - React.js

77363 66516 ◇ naveenkms2173@gmail.com ◇ Kerala, India ◇ [LinkedIn](#) ◇ [GitHub](#) ◇ [Portfolio](#)

SUMMARY

Frontend Developer with 2+ years of experience building responsive, high-performance web applications using **React.js, Next.js, and TypeScript**. Skilled in state management, performance optimization, and translating UX/UI wireframes into pixel-perfect, functional interfaces. Experienced in working in **Agile environments** and collaborating closely with designers and product teams. Passionate about solving complex interface challenges and delivering pixel-perfect, accessible user experiences.

EXPERIENCE

Frontend Developer

Feb '23 — Apr '25

TGH Tech

Kochi, Kerala, India

- Implemented **frontend list virtualization** to enable lag-free scrolling for **1,000+ inventory items**, effectively mitigating the lack of server-side pagination.
- Developed and standardized a component-driven design system using **ShadCN UI & TailwindCSS**, increasing code reusability and accelerating feature delivery by **~25%**.
- Optimized application performance using lazy loading, code splitting, memoization, and modern rendering strategies (**SSR/SSG**), improving Core Web Vitals by **20%**.
- Implemented advanced filtering and infinite pagination features using TanStack Query, optimizing data retrieval and enhancing the user experience for large datasets.
- Implemented a **dynamic document generation feature** for a financial advisory platform that converts assessment results into **downloadable PowerPoint presentations**.
- Developed custom onboarding and authentication flows for each user role, utilizing JWT tokens for secure, role-based access and page-level restrictions.

Full Stack Developer

Present

Freelance

Remote

- Built a responsive admin interface using **Angular v21**, utilizing Signals for granular state management and daisyUI (Tailwind CSS) for rapid UI development.
- Engineered a **serverless PDF generation pipeline** for a Certificate Management and Issuance System using **Node.js** and **pdf-lib**.

PROJECTS & CONTRIBUTIONS

- Transition Drawer (Open Source)** – Developed a composed, animated, multi-level React drawer using Radix UI, Framer Motion, and ShadCN. Published as a **CLI-installable component** designed for easy integration and developer experience.
- Receipto (Next.js 15 + LlamaExtract + PostgreSQL + Drizzle)** – Built a full-stack OCR-based expense tracker leveraging React **Server Components** and useActionState to handle form submissions and state transitions efficiently, enhancing UX and minimizing client-side overhead.

SKILLS

Frontend: React.js, Angular, Next.js, TypeScript, TailwindCSS, JavaScript(ES6+), Zustand, Redux, Accessibility (WCAG), HTML5, CSS3, Framer Motion, TanStack Query, Design Patterns

Backend & APIs: Node.js, Express.js, MongoDB, PostgreSQL, Drizzle, REST APIs, Firebase

Testing & Tools: Jest, React Testing Library, Cypress, Git, CI/CD, Vite, Vercel, Cursor

Performance & SEO: SSR, SSG, Server Components, Lazy Loading

EDUCATION

Bachelor in Computer Science, College of Applied Science, Nattika

Jun '19 — Jun '22
